Eurydice Prentoulis
English teacher

To Whom It May Concern:

It is great pleasure for me to recommend Eurydice for the position of English teacher. She has been an adorable teacher of my 8 year's old son Christopher for the past two years, first year during his school lessons, and second year in private lessons once a week. Christopher has made a great progress in the last two years and was always looking forward to his English lecture.

Euridyce's lessons were very imaginative, colorful, well planned and carried out well. She was able to create an environment where he felt safe, could have taken risks and been adventurous with his use of English. She is well-informed teacher and is able to present information on a wide variety of topics. Her lessons were multidisciplinary. Through the English language Christopher was able to learn something about paleontology, prehistory, zoology, evolution, geology, and also world culture and world history.

Also, she had a great relationship with all the kids. Lessons were playful, collaborative and often had a fantasy and storymaking element. Euridyce works very well with the children and understands perfectly how they think and what they like. She knows many of their toys and favourite heros and is good at exploiting this knowledge to make fun and amusement.

She is also good at getting children to use their own talents to make them continue learning English (and other things) by themselves.

Again I recommend, with no reservations, Eurydice Prentoulis to your organization and strongly believe that she will be an excellent addition to your staff.

Yours Truly,
